SESSION 1: Introduction to Fundraising

Goals for this session

- Learn why fundraising is important to clubs or districts
- Explore different mechanisms of fundraising
- Learn the basic credos of fundraising
- Learn the psychology of fundraising and where people fit in on the giving spectrum
- Learn the various sources of funds
- Learn how to plan your Rotary year to include different aspects of fundraising
- Learn how networking can help you in fundraising

1) What types of Fundraising does your club or District need to do?
2) Ask, “What are some projects for which your club or District has tried to raise funds?”
3) What are some general ways that a Rotary Club or District can raise funds?
4) What are the two cardinal rules of fundraising?
   - Rule #1: If you don’t ask, you don’t get…
   - Rule #2: Don’t ask before you give personally
5) What is the importance of asking?
6) Are you apprehensive asking for money for a good cause? Why?
7) What steps can someone take to get over anxiety about asking people for funds?
8) Ask, “Why do people give?” Make it personal!
9) Why do you need to give your own donation before you ask someone for funds?
10) What are some types of major sources of funding for projects?
11) Which do you think is the most important source of funding?
According to Giving USA, Americans donate one billion dollars a day to help others. This degree of generosity resulted in an estimated $373.25 billion in charitable giving in 2015, an all-time high for the second consecutive year. The steady improvement in the economy continues to have a positive impact on charities across all sectors.

- **The largest dollar increase in contributions can be attributed to gifts by individuals.** Individual giving increased by **$9.8 billion** or 3.8% from the prior year. Total giving by individuals is estimated at $265 billion. Individuals who itemize account for 82 percent of this total estimate.

- **Giving by foundations** increased by 6.5 percent to an estimated **$58 billion**. Grantmaking by community foundations rose by 7.4 percent. Interestingly, giving to foundations is estimated to have declined by 3.8 percent.

- **Bequests** accounted for 9 percent of all gifts for an estimated **$31.8 billion** in 2015. Estimated bequests from estates $1 million and above amounted to $25 billion and those below $1 million amounted to $6.32 billion.

- **Giving by corporations** increased by 12 percent between 2013 and 2014. The increase in GDP and corporate pre-tax profits increased over the prior year. Both of these economic indicators have been found to positively affect corporate giving.

Overall, gifts from individuals continue to dominate charitable giving and account for approximately 2/3 of all estimated contributions.
12) What areas of giving do you think are most important to donors in the USA?
13) Where does Rotary fit into this?

Steps to form your club or District's own nonprofit 501(c) (3) corporation

By Bethany K. Laurence, Attorney

1. **Choose a name.**
The name of your nonprofit corporation cannot be the same as the name of another corporation on file with your state's corporations office (usually the Secretary of State's office). It must end with a corporate designator, such as "Corporation," "Incorporated," or "Limited," or an abbreviation of any of those words.

Your state's corporation's or Office on Non-Profits office can tell you how to find out whether your proposed name is available for your use. For a small fee, you can usually reserve the name for a short period of time until you file your articles of incorporation. For more information, contact your state's corporation's office.

2. **File articles of incorporation.**
You must file "articles of incorporation" with the state's corporate filing office. In this document, you fill out some basic information such as your nonprofit's name and office address. Although preparing this document isn't difficult, you do need to include specific language to ensure that you'll receive tax-exempt status. Your state's nonprofit formation packet, if available, may include the required information.

3. **Apply for your IRS tax exemption.**
Submit a federal 501(c)(3) tax exemption application to the IRS (along with a copy of your filed articles with your application). To apply, you must complete IRS Package 1023, *Application for Recognition of Exemption.*

Smaller nonprofits may be eligible to file Form 1023-EZ, *Streamlined Application for Recognition of Exemption Under Section 501(c)(3) of the Internal Revenue Code.* This is a shorter, simpler application form that you complete online. Check the IRS website and instructions to the form which include an Eligibility Worksheet you must complete to determine if your nonprofit meets the requirements for using the shorter streamlined form.

4. **Apply for a state tax exemption.**
This step does not apply to nonprofits in all states. In a few states, you must complete a separate application to get a state tax exemption. In most states, as long as you file nonprofit articles of incorporation and obtain your federal 501(c)(3) tax-exempt status, your state tax exemption will be automatically granted. In still others, to get your state exemption you must send in a copy of the IRS determination letter that granted your federal exemption. Contact your state tax agency to find out what steps you must take.

5. **Draft bylaws.**
A nonprofit's bylaws are the internal governing rules that contain rules and procedures for holding meetings, voting on issues, and electing directors and officers. Typically, the bylaws are adopted by the corporation's directors at their first board meeting. For help creating bylaws, see *How to Form a Nonprofit Corporation,* by Anthony Mancuso (Nolo).

6. **Appoint directors.**
A nonprofit's directors make the major policy and financial decisions for the nonprofit. Many states allow nonprofits to have just one director, but other states require at least three.

7. **Hold a meeting of the board.**
At the first meeting of the board of directors, the directors take care of formalities such as adopting the bylaws, electing officers, and recording the receipt of federal and state tax exemptions. After the meeting is completed, minutes of the meeting should be created and filed in the nonprofit's records binder.
8. Obtain licenses and permits.
Check with your state department of consumer affairs (or similar state licensing agency) for information concerning state licensing requirements for your type of organization. For instance, if you sell anything to consumers, you'll need a sales tax permit, and your activities may require a zoning permit.

**Resource:** [https://www.smartsheet.com/blog/support-tip-work-back-schedule](https://www.smartsheet.com/blog/support-tip-work-back-schedule)
BREAKOUT SESSION 2 (30 minutes)

You and your team will design a backwards calendar (aka, Project Management) for an event you choose. Each team will be given a different type of event to plan. Your team will choose the event, but it must be a different event from the other teams in your class. After teams have finished their backwards calendars, they will share them with the rest of the class. See Attachment 2-H

PROCESS

Have everyone in your group (or your club or committee) envision what they see when they walk into the venue where the event is going to be held. (great way to get buy-in, since everyone is envisioning the event together.

Consider all the components that will go into planning your event. Make a list of what you envision, and then break it down into tasks that must be completed before the event takes place. Include:
- Venue reservations
- Decorations
- Flowers
- Music or other entertainment
- Printing invitations and journals
- Preparing for a raffle and getting prizes (including getting permits, licenses, etc.)
- Getting other giveaways or tricky tray prizes
- Publicity and advertising pieces
- Travel arrangement and accommodations
- All other details

Using an Excel Spreadsheet, and a calendar, start with the last task on your list to be completed before the program. Write it on your planning calendar and consider its components.

If there are component tasks which need to be completed by specific dates, work backwards with them and plug them into the calendar.

Proceed with the next to the last task to be completed, and so on until you have worked up to the most immediate task.

After all deadlines are decided upon, delegate tasks to team members.

By working backwards, before you ever start to go forward, you run less chance of overlooking an important component or realizing that you have eight major tasks to complete by tomorrow. This process of careful pre-planning gives you a better chance for allowing time to complete the tasks efficiently and effectively.

After the event is over – obligations and evaluation

1) What types of things do you need to do after the event is over?
2) What are the tax implications of thanking people for special events?
3) How can you evaluate the event you just held?
ATTACHMENT 2-A
Are you ready for an event?

- Where are the necessary sources of support – people who can bring in new sources of money?
- Do you have access to potential event leadership?
- Do your leadership possibilities have the capacity to raise the money necessary to meet your goal?
- Will your membership support this type of event?
- How will an event promote your Rotary club or District?
- Can your Rotary club or District undertake the necessary start-up costs?
- Do you have a stable donor base to support the event?
- Are your lists current and accurate?
- Can your Rotary club or District justify the time and effort necessary?
- What types of in-kind support can you garner?
- Is an event the best use of staff time?
- Are your financial expectations realistic?
- You need a structure. Chairs are honoree specific. Is it an anniversary year?
- The best programs sell your mission.
- Most people come to network, interact with others.

Attachment 2-F
Tax guidelines for holding a special event

An attendee can only deduct the portion of the admission that exceeds the fair market of the goods or services received, otherwise there is no gift. Thus, whether you’re figuring out if an item has an insubstantial value or if you’re trying to inform a donor about how much they may legally deduct as a gift, you must be able to determine the fair market value. Generally, the charity’s good faith estimate of the value of goods or services will be treated as the FMV, and a donor may rely on your estimate except when the donor knows your estimate is unreasonable. Rather than give an abstract procedure to use, here are some examples.

- **Dinner Dances** - The first thing to remember is that FMV is not the cost to your organization. If you’re running a dinner-dance as a fundraising event and the space, flowers, food, printing and music are all donated, the FMV is not zero. The FMV is estimated at how much that evening would cost someone if he or she were to go out and purchase a similar evening of dinner and dancing at a commercial establishment.

- **Raffles** - Raffle tickets are not deductible at all as contributions. The purchaser has bought a chance to win something and the FMV of that chance is whatever was paid for the ticket.

- **Auctions** - Auctions are tricky. If there is a catalog produced and distributed to potential bidders before the auction, and the catalog or list includes the organization’s estimates of FMV, then the general rule applies - the purchaser may deduct as a charitable donation the amount paid above the stated FMV of the items. However, if there is no prior notice or estimate of the value of the item, the IRS may assume that the FMV of the item is what was paid for it and none of the payment will be considered as a gift.

- **Goods/Services Not Commercially Available** - Examples in this category include personal services performed for the donor or his family, an open bar at a golf outing, etc. To assess the FMV in those cases, you may make a good faith estimate using closely comparable items for guidance.

- **Celebrity Appearances** - The key question here is whether the celebrity is actually doing what s/he is primarily famous for. For example, if a famous musician gives a concert to benefit your organization, then the FMV of the ticket is what a concert ticket would ordinarily cost to see that performer, and the donor may only deduct the portion of the purchase price that exceeds that FMV. However, if the same celebrity is merely appearing to sign autographs and is not performing, there is no FMV associated with the celebrity’s appearance.

One of the largest tasks an organization will encounter is planning an event. The key to success is having a plan of action to accomplish every task that must be accomplished to assure a great event. The most effective method of planning an event is to start from the day of the event, working back to the present day. By looking at a timetable to get things accomplished, you’ll be more apt to schedule completion dates more realistically and have a successful event.

PROCESS
Make a list of tasks that must be completed before the program. Include:

- Publicity and advertising pieces
- Space reservations
- Travel arrangement and accommodations
- All other details

- Using a calendar, start with the last task on your list to be completed before the program.
- Write it on your planning calendar and consider its components.
- If there are component tasks which need to be completed by specific dates, work backwards with them and plug them into the calendar.
- Proceed with the next to the last task to be completed, and so on until you have worked up to the most immediate task.
- After all deadlines are decided upon, delegate tasks to team members.

By working backwards, before you ever start to go forward, you run less chance of overlooking an important component or realizing that you have eight major tasks to complete by tomorrow. This process of careful pre-planning gives you a better chance for allowing time to complete the tasks efficiently and effectively.

*Here’s how to do it…*

- Start with a new project sheet in Excel.

In this type of scenario, the end date of your project (rather than the start date) is what you know.

- Envision all the items you will need for the event – what do you see when you walk in the door? To get started, organizing all the tasks and put dates behind them – in order to determine a start date for all of your planning.
